

# Crear una nueva genealogía

Esta acción ayuda a crear una nueva genealogía.

A continuación se muestra la imagen de la primera página del asistente guía.

The screenshot shows a dialog box titled "Create a genealogy" with a close button (X) in the top right corner. The dialog is divided into two main sections. On the left, under the heading "Steps", is a list of four steps: 1. First individual, 2. Author, 3. Places criteria, and 4. Description. Below this list is a small illustration of a green plant with three leaves. The right section is titled "First individual" and contains the following text: "You will create here the first individual of your genealogy. This individual is probably you !". Below this text is a paragraph: "You will be able to add other information regarding this individual with the Ancestris editors." The form includes three input fields: "Firstname" with the value "John", "Lastname" with the value "Doe", and "Sex" with two radio buttons. The first radio button is selected and accompanied by a male icon, while the second is unselected and accompanied by a female icon. At the bottom of the dialog are five buttons: "< Back", "Next >", "Finish", "Cancel", and "Help".

**Create a genealogy**

**Steps**

1. **First individual**
2. Author
3. Places criteria
4. Description
